

NITROTHERMSPRAY SYSTEM

List of advantages referred to us by our clients

- 1.Reduced application time 25 - 50%
- 2.Increase transfer efficiency
- 3.Eliminates need of longer dry time for water bourne paints
- 4.Reduces material usages up to 35%
- 5.Eliminates wait between 1st and 2nd coats
- 6.Increases flash times
- 7.Eliminates min of 2 coats 1 base and 1 clear
- 8.Allows same number of coats for vertical or horizontal panels
- 9.Removes static electricity
- 10.Changes polarity to promote attraction
- 11.Reduction of overspray
- 12.Reduces filter usage
- 13.Removes surface moister
- 14.Removes all impurities solids
- 15.Eliminates variable of density in air
- 16.Makes metallic and solids lay down flatter
- 17.Increases distinction of image in reflection
- 18.Improves colour matching on solvent and water bourne
- 19.Eliminates solvent pop
- 20.Eliminates mottling
- 21.Eliminates all major uncontrollable variables
- 22.Reduces VOC's
- 23.Allows the return of pure oxygen back to the environment
