

# Introducing NITROTHERM™ SPRAY SYSTEM

## Better, Faster, Cleaner Finishes

The NITROTHERM™ SPRAY system by Eurosider Derivair has revolutionized spray painting with an innovative method that offers high quality finishing and real savings in costs.

- Increases Productivity up to 40% by reducing flash and cure times
- Increases Transfer Efficiency for less material usage and fewer coats
- Ideal for high solids and water borne finishes
- Reduces VOC Emissions
- Will reduce paint solids mottling from 30% to 100%
- Regulated temperature output, heats material to manufacturer's recommended spray temperature
- Static elimination by deionization
- The system converts compressed air to 99.9% pure nitrogen. This process assists in eliminating contaminants.
- Reduces VOC emissions

**BETTER COVERAGE, LESS MATERIALS, CLEANER FINISHES**

# VERNICIATURE A SPRUZZO DI ALTISSIMA QUALITA'!

AUMENTA LA PRODUTTIVITA'

RIDUCE L'EFFETTO OVERSPRAY

ACCELERA IL PROCESSO DI EVAPORAZIONE  
CON QUALSIASI TIPO DI VERNICE

ELIMINA LE COLATURE  
E L'EFFETTO  
BUCCIA D'ARANCIA

PERFETTA DISTENSIONE

**NEW!**  
*Metodo e Tecnica brevettati*

Il fluido vettore tradizionale (aria compressa filtrata) è sostituito con azoto puro al 99,5%, deionizzato e secco avente temperatura e pressione di utilizzo ottimali per la stesura, distensione e evaporazione dello strato di pittura spruzzato sia per vernici che per qualsiasi tipo di resina a liquido

# NITROTHERM SPRAY SYSTEM™ is changing refinishing at the atomic level.

## Don't Get Left Behind...

" Elimination of mottling of metallic, better blend results, Better color matches, dirt free jobs. Significant increase in waterborne cycle time. All-around increase in refinish productivity; at least 20% saving in materials and over \$4000.00 per month in labor from reduction in buffing.

Carl Jobson  
PREMIERE BODY STOP  
Pompano Beach, FL.

" The unit has significantly improved our production: cleaner finishes...less trash, less material and less time in spraybooth, Simply a better-looking finished product (solvent or waterborne)... paint is "flatter" (less orange peel). "

Doug White  
Capitol Body Shop  
Ridgeland, MS

"We have completely eliminated dirt, the shine is totally unbelievable, the finish is superior. Therefore more cars, less time, no polishing and fantastic finishes. I am impressed and highly recommend this unit. "

Sam Piercey  
Budds' Collision Services  
Oakville, ON

**" NitroTherm Spray System™ increased my volume by \$200,000.00 a month"**
